DETAILED ACTION

This Office Action is in response to applicants' amendment filed on 06/25/2004.

Claims 1-31 are pending in the action.

Drawings

New formal drawings in compliance with 37 CFR 1.121(d) are required in this application for improved print quality. Applicants are advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The claimed invention is directed to a method for system design of a plant using a web-based system including a server and at least one device connected to the server via a network. The plant design system and method comprising the steps of receiving application data from a user via the device, integrating the received data into a database, utilizing the integrated data to monitor design activities, collecting monitored design activity data, displaying the collected data through a web interface to a person, and red-lining a drawing over the network by executing a computer program, the drawing pertaining to the plant, and being viewed over a network.

Because the closest prior art of record does not expressly disclose or suggest the claimed invention, specially, the design system includes a server configured to red-line a drawing, through an intelligent drawing layer, when the drawing is viewed over a network as claimed, the claims are thus deemed allowable.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thai Q. Phan whose telephone number is 703-305-3812.
